<b>RAM</b>	<b>5.7-T (345)</b>	<b>OHV</b>	<b>2019-21</b>	<b>1500 Classic</b>

**Important MDS Delete Kit Notes**

- When installing a delete cam, the Active Fuel Management lifters must be replaced using Non-Active Fuel Management lifters.
- The valve lifter guides used in Non-Active Fuel Management engines are different from those used in Active Fuel Management Engines and must be replaced when installing the Non-Active Fuel Management lifters
- The MDS Solenoids must be replaced using Non-MDS plugs
- Pushrod length must be checked during installation to verify that the correct length pushrods are being used
- The vehicle engine control module/Power train control module must be reprogrammed to turn off the Active Fuel Management System in the operating software

**Components must be used together**
